Denise:

Attached are draft public newspaper notices for MacMillan Ring Free Oil (proposed NPL), Wilcox Oil (final NPL), and Jackpile-Paguate Uranium Mine (final NPL) for EPA's review and comment. The Jackpile-Paguate Uranium Mine notice has a Spanish-language translation, as was done for that site's proposed notice.

For the MacMillan and Wilcox Oil draft notices, please confirm the language that the sites are being proposed/finalized in conjunction with the State (ADEQ for MacMillan, and ODEQ for Wilcox). This was the language used when Wilcox was proposed to the NPL earlier this year, but we need confirmation that this is correct for these two notices.

Please let us know if you would like Toeroek to forward these draft notices to Brenda Cook after we receive your comments and/or approval, or if you will do that internally.

Thank you.
